

VWS Westgarth Ltd

Health & Safety Policy Statement

VWS Westgarth Ltd is committed to continuous improvement in its Health & Safety Management and ensuring the Health and Safety of all employees involved in all elements of our operations. With all our managers, staff and partners, we shall endeavour to achieve this in consideration of;

Our Goals:

Our Actions:

Accident Prevention

- *Keep our workplace accident-free by implementing robust safe working practices*
- *Identify and address potentially unsafe conditions before they cause any harm*
- *Promote a safer working culture with our suppliers*

Risk Assessment

- *Identify hazards and assess the risks before any task commences*
- *Ensure adequate control measures are put in place*

Performance Monitoring

- *Plan and carry out audits and inspections in our workplace*
- *Monitor and report performance*
- *Provide feedback*

Communication & Training

- *Listen to and liaise with our employees and partners*
- *Ensure that their role is clear, understood and they are competent to perform their task safely*
- *Provide the relevant information, training and instruction*

Responsibility

- *Clearly identify and advise our employees on their Health & Safety role & responsibilities*
- *Ensure our supervisors and managers lead by example*

Compliance

- *Comply with the applicable Veolia High Risk Management Standards*
- *Identify and comply with any local; Health & Safety requirements in all our business locations*

Working as a team, promoting and taking pride in our own safety culture in the design of our work, implementation in every facility where we operate, and throughout any support services we provide on our Clients sites onshore or offshore:

I count on every single employee – regardless of their role or level within the Company – to join me in promoting health and safety in our workplace, respecting the arrangements in place and preventing any occupational risks wherever possible.

Dave Sheldrake

Managing Director
